

Customer

BGN (Baré Grolleau Nivault) Niort, France

Business issues

- Use of solid, delicate/brittle and expensive materials which do not allow for incorrect material ordering
- Integrating new stairs and railings with glass panels

"Advance Steel enabled me to create documents with greater confidence; this is why I will never go back to working in 2D!"

Mr Fays, Projector in Steel

Business results

- Easy understanding with the 3D view
- Correction of the majority of the conception, fabrication and assembly problems
- Flexibility of the available modeling tools
- Minimization of errors due to the modeling of the entire project
