

**Customer**  
Finaxiome  
Amiens, France

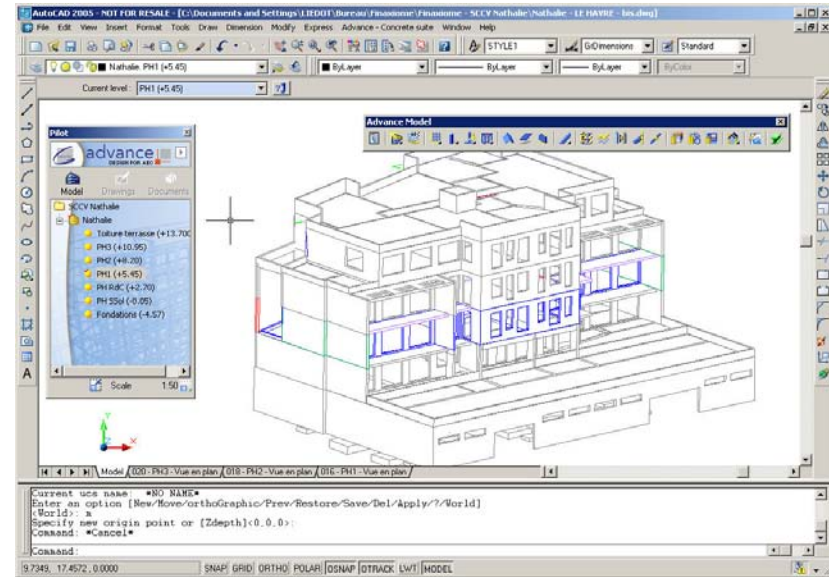

## **Business issues**

- The front, external and interior walls do not lead at all to the basement
- Retaining wall on the street side, built in 2m alternate bays
- Numerous openings

## **Business results**

- Easy and fast 3D modeling of the building
- Creation of the reinforcement drawings with Advance Concrete
- Automatic creation of precise construction drawings

*"The software is easy to use. The main advantage of Advance Concrete is the high productivity."*

Mr Bourgeois,  
Design Office Manager, FINAXIOME
