Noving Ltd
Vitkovice, Czech Republic

Business issues

- Need to measure, check and create the model from more than 30.000 elements (beams, columns, bracing)
- Size of the task

"The project required to combine our own measurement evaluation software with Advance Steel. Without Advance Steel we would not have been able to handle the whole project. "

Mr. Novotny, Managing Director

Business results

- Reduction of errors
- Possibility to share full objects data across platform
- Ease of design changes
