Project characteristics

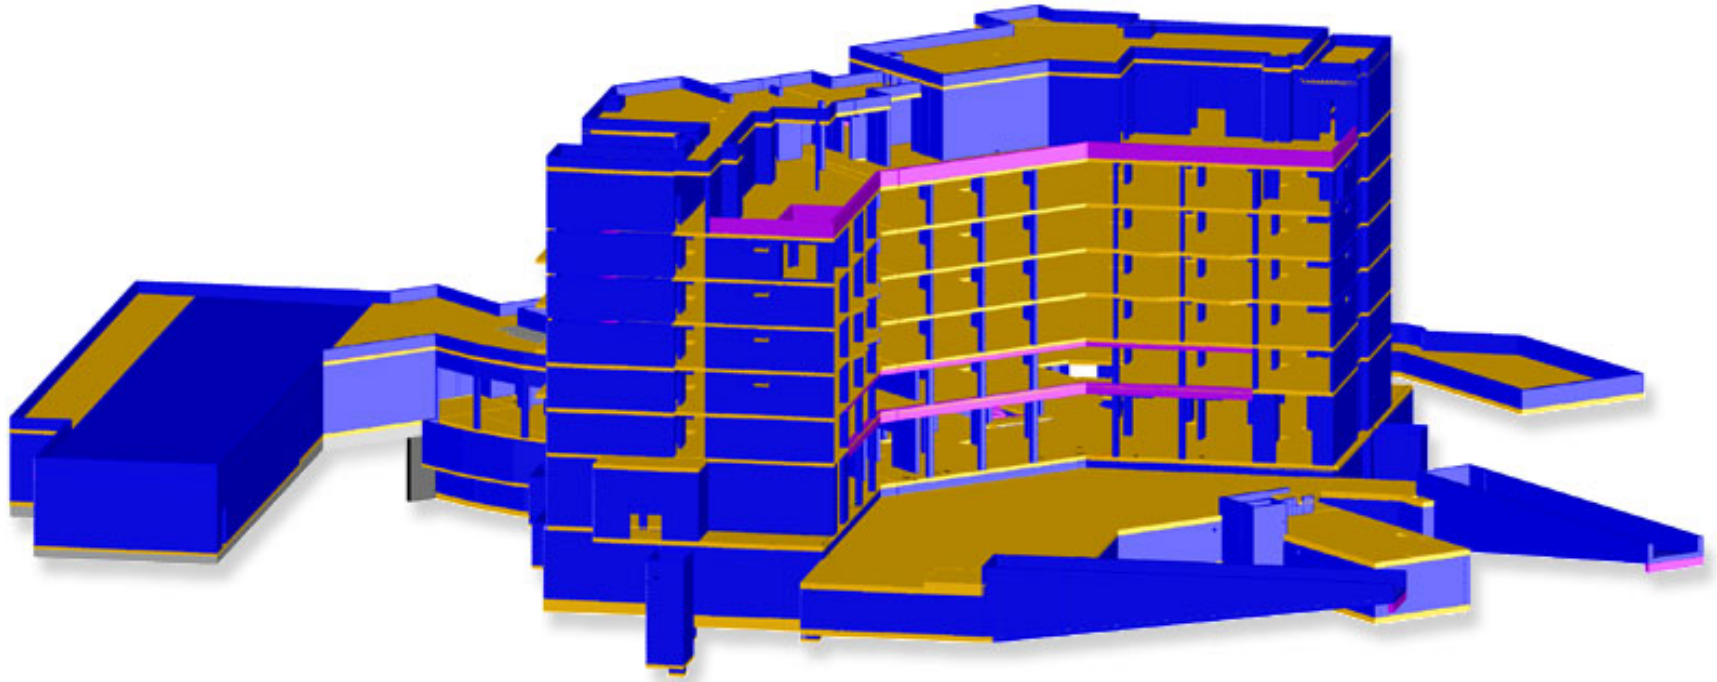

- > 7 floors, 2 basements, an underground parking lot, a ballroom and a bowling hall
- > Made from 7000 m³ of concrete and 800 tons of steel; built on an area of 3.700 m²
- > The total area of the real estate is 12.000 m²

Solutions

- > 3-D Modeling
- > All information included in the model

> ADVANCE <

For Mr. Christian Bauer: “Advance Concrete provides the ability to work in three dimensions, all information is included in the model and since manual drawing creation is no longer necessary, we are able to work faster and more efficient.”
