

Customer

Biuro Inżynierskie Michał Nowicki
Żółwieniec, Poland

Business issues

- Steel mast supported by 5 levels of cables elements.

" During exploitation elements of high mast structure are open to large displacement. Advance Design makes possible to run non-linear analysis for these elements."

Business results

- Advance Design has user friendly interface which is very useful and intuitive in structure modeling – possibility to prepare clear and complete F.E. model for analysis.
