

## Customer

Stahlhallen und Baustoffe Janneck GmbH  
Molbergen, Germany

## Business issues

- Triangular shape of the building
- Diamond-shaped arrangement of the roof girders
- Different spans of roof girders in the single areas

*“Without the use of Advance Steel with its many excellent functions, especially the 3D ability, the realization of this project would not have been possible for us.”*

## Business results

- Comprehensive modeling tools
- Library of intelligent connections
- Automatic creation of workshop drawings with customized layout

Mr. Manfred Dröge,  
Construction engineer
