

# LE JARDIN DES PEINTRES

Structubat design office  
Dury, France

## Project description

- **Location:** Amiens, France
- **Architecture office:** Finaxiome
- **Contracting authority:** SCCV Le jardin des peintres
- **Dimensions:** 20 buildings, 257 accomodation.  
(5 floors including 1 basement)
- **Specifications:** floor area of 7800 square meters  
Total area of 14000 square meters

## Business issues

A significant project :

- 257 accomodation
- 20 buildings (650 piles)

## The solution

- Graphic guidelines implementation utterly based on Advance Concrete
- Quick and user-friendly modeling

*"Advance Concrete allowed us to quickly understand how the building was structured thanks to 3D visualisation, hence enabling us to significantly reduce the risk of errors"*

Mr Bourgeois, Structubat Design Office Manager

## Business Results

- Significant saving of time
- Better 3D visualisation of elements
- Easy-to-use interface

ADVANCE CONCRETE
