

## Customer

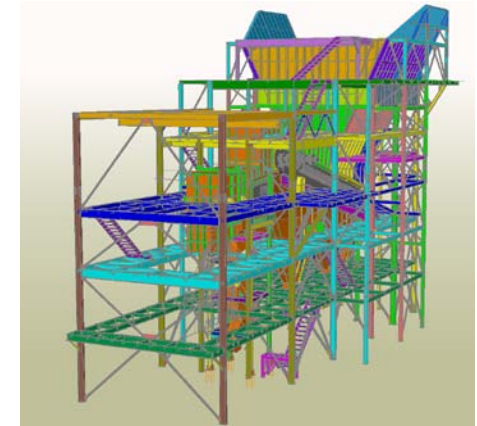

Dantu Drafting  
Ivory Coast, West Africa

## Business issues

- Complete Roll-Off Material tips were required with no workshop pre-assembly time provided
- The bin plate work forms part of the structure to be able to withstand the relevant forces

## Business results

- Speed and ease of modeling
- Standard connections
- Standard member sizes

*"We found that the speed and ease of modeling in Advance Steel was unmatched by any other package in the current market place. The transformation from AutoCAD to Advance steel can be done within a short period of time thus making the change quick and inexpensive."*

Clinton Dantu,  
Draftsman, Dantu Drafting
